About Minnesota Hockey Fights Cancer

Minnesota Hockey Fights Cancer was founded in 2018 to drive and promote the American Cancer Society's annual Hockey Fights Cancer campaign. While we continue to fully support and promote the American Cancer Society's efforts, our effort has expanded to the support of all cancer causes including, but not limited to:

- The Angel Foundation
- University of Minnesota Foundation (Cancer Patient Support Fund)
- Mayo Clinic Foundation (Cancer Research)
- CapStrong Coporation

Our mission is to energize the hockey community in Minnesota to build awareness and support the fight against cancer.

Any team, association, high school or other interested hockey organization can join the fight by visiting <https://mnhockeyfightscancer.org/join-the-fight/>.

The annual campaign starts in October and goes through the end of March. We also provide support for fundraising for summer teams.
